THE ROAD TO RESOUNDING SUCCESS

People often refer to Australia as the land of opportunity. We believe that our school offers an amazing plethora of experiences for young adults to start their journey on their own road to success.

The outstanding breadth of our curriculum and the myriad of opportunities made available to our students, not only enrich their experiences, but also unlock the doors to many exciting career prospects in the future.

Please join me in celebrating the extraordinary successes of our students who have capitalised on the diverse array of opportunities offered to them at Harristown High.

Kenneth Green
Principal

August, 2012
